

3rd Grade Newsletter

Week of August 24-August 28

Reminders

- Arrive to class on time.
- Headphones will help students stay more focus during learning time.
- Attendance is taken everyday for the previous day.
- Refer to the Parent Orientation Website for any online support.
- Remember to check your child's teacher's website information.

Classroom News

Thank you parents for making it a very successful week! We were glad to see most of our students online for the NWEA practice test. We are confident that our 3rd graders are ready for testing on Tuesday, Wednesday and Thursday from 8-10am LIVE. They are required to log into their teacher's ELA google classroom and click on the live link. Their teacher will walk them through steps to log on successfully. Please make sure they are getting rest and eating breakfast.

This week, the front office will be doing another curriculum distribution on Monday and Tuesday from 8-3pm. This is extra work your child can do for practice but is not required.

Thank you all for your patience and flexibility. Your support is truly appreciated!

-Mrs. Buechel

NWEA Testing:

Students will be testing this Tuesday, Wednesday, and Thursday starting at 8:00am-10:00am.

During these testing days, students will have student paced lesson nearpods to complete after their test.

Shout Outs!

Alexsire and Garcelli- for receiving a Pawsitive referral for accepting responsibility and completing all of her assignments.

Quote of the week:

Mistakes are proof that you are trying.

Helpful Tips at Home:

- Have your child read for 15-20 minutes a day.
- Have them practice taking deep breaths
- Praise them for their hard work.

What We're Learning Next Week

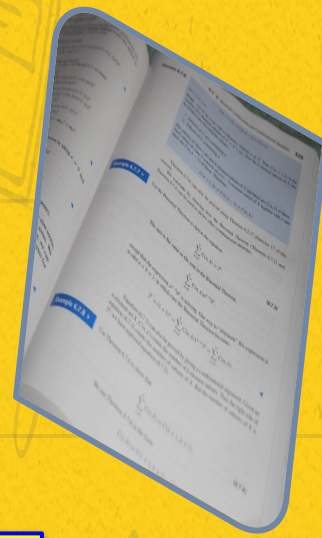

Reading: This week, students will continue building on the understanding of the characters contribution to the sequence of events. Students will also use context clues to determine the meaning words.

Writing: This week, students will focus on organizing their writing using a four square graphic organizer.

Math: This week, we will continue working through Chapter 2 using properties of addition and strategies.

Science: This week, we will continue discussing sound and how sound travels in waves of energy. It can be high pitched or low.

**Trade Book, Curriculum, and Resource
